

## Norcimbus Expands Worldwide Sales Organization

**PHOENIX—December 5, 2008**—Norcimbus FCIV, Inc., ([www.norcimbus.com](http://www.norcimbus.com)) has significantly increased the worldwide representation for its [ultra high purity gas and chemical dispense technology](#) with the addition of four sales organizations to its global network of representatives. The new agreements are with **SMC Technologies** and **Midwest Equipment WRX** in the United States (US), **Intech Analytics** in Russia and **Via Engineering** in India.

“Norcimbus has a long history of providing quality products to the semiconductor industry, and has seen a rapid increase in market share in the photovoltaic and solar industry,” said John Wheeler, President of Norcimbus. “Given this recent growth, it became imperative to secure agreements with professional organizations to represent and support our portfolio of custom ultra high gas and chemical dispense products worldwide.”

Norcimbus specializes in custom solutions for gas cabinets, gas panels, bulk specialty gas systems, variable flow specialty gas blenders, vapor delivery, chemical delivery and associated support equipment for the semiconductor, photovoltaic, TFT/LCD, MEMS, LED, nanotechnology, biomedical, defense and aerospace industries.

SMC Technologies, based in Wilsonville, Ore., will be responsible for increasing sales in the states of Oregon, Washington, Idaho and Utah, while Midwest Equipment WRX, of Woodbury, Minn., will represent the Norcimbus product lines in Minnesota, Wisconsin, Iowa and North and South Dakota. These new firms join existing US-based representative agencies Walker Hi-Tech, which services Arizona, New Mexico and Colorado, and SilPac, which covers Northern California as part of the company’s domestic sales organization.

Norcimbus has strengthened its international sales organization with the addition of Intech Analytics in Russia and Via Engineering in India. Norcimbus is already represented by Facility Equipment & Materials in Europe, Y. Zakar Consulting in Israel and Semisysteme Asia in Singapore, Malaysia and Indonesia. In addition to its sales representatives, Norcimbus also maintains a direct sales and service office in Shanghai, China.

### **About Norcimbus**

Norcimbus is an industry leader in the design, engineering, manufacturing, installation, and qualification of particle-free UHP process gas systems and related automation systems. Formed in 1990 by a group of individuals with extensive experience in the semiconductor manufacturing industry, the company’s dedication and training allows it to give its customers the highest quality products available today. Norcimbus is based in Phoenix, Ariz. where it operates a 20,000 square foot manufacturing facility with 2,500 square foot certified Class 10 cleanroom. For more information contact Norcimbus at (602) 437-8500 or visit [www.norcimbus.com](http://www.norcimbus.com).
